GENERAL SPECIFICATIONS

GUARDSMAN SERIES

UPHOLSTERY: Naugahyde House and Garden 40 ounce expanded supported vinyl. See swatch card for colors. Same material dielectrically sealed into 3" channels. All colors. **FOAM CUSHIONING:** 2½" thick polyurethane foam on seat and back. ½" thick foam padding on outer back. **INNER CONSTRUCTION:** ¾" 5 ply curved plywood seat and back. ¾" 3 ply curved plywood outer back. Outer back attached with slip in locking clips. Back attached to seat with a decorative polished cast aluminum support with concealed fasteners. Concealed fasteners are ¼"—20 machine bolts attached through the wood into ¼"—20 metal T-nuts. **BASE CONSTRUCTION:** Two part polished cast aluminum pre-assembled with 11 gauge steel brackets and ⅝" machine bolts for multiple seating units. Single seating base pre-assembled to swivel with ½" drawrod attaches to seat with ¼"—20 kep nuts. "T" bar seating attaches seat unit to heavy duty 2½" x 2½" x ⅜" thick "T" bar by joining base unit to a pre-mounted seat "spider" with two ⅝" socket head cap screws. **SWIVEL OR ATTACHMENTS:** Swivels are exclusive heavy duty dura-swivel. Attachment for "T" bar, cast aluminum "hubs" and "spiders" with baked on epoxy enamel finish. **TABLE TOPS:** 1¼" high density particle board laminated both sides. Top is .040 melamine, back-up sheet .030 phenolic. Edging is extruded vinyl banding.

SOLARIS I

UPHOLSTERY: Naugahyde House and Garden 40 ounce expanded supported vinyl. See swatch card for colors. Cover is double stitched and button tufted. **FOAM CUSHIONING:** The inner seat and back are shaped, molded polyurethane foam to conform with contour of unit. Outer shell is covered with ½" polyurethane foam. **SHELLS:** Injection molded high impact structural foam styrene.

SOLARIS II

Back — 1" thick polyurethane foam inside and outside. 2" polyurethane seat cushions. Shells — ⅞" laminated Fiberboard.

SOLARIS I AND II

BASE CONSTRUCTION: Highly polished cast aluminum, pre-assembled. "T" bar seating attaches seat unit to "T" bar joining base unit to a pre-mounted seat "spider" with two ⅝" socket head cap screws. Single lounge bases are drawrod construction. Swivel or top plate is assembled to cast aluminum base with ½" drawrod. **SWIVELS OR ATTACHMENTS:** Swivels are Chromcraft's exclusive heavy duty dura-swivel. Attachments for "T" bar are cast aluminum "hubs" and "spiders". All fastening connectors are "T" nuts. **TABLE TOPS:** 1¼" banded edges. Tops are 1¼" banded edges. Tops are 1¼" high density particle board laminated two sides. Top is .040 melamine — back up sheet .030 phenolic.

CAVALIER SERIES

UPHOLSTERY: Naugahyde House and Garden 40 ounce expanded supported vinyl. All colors. See swatch card. **FOAM CUSHIONING:** Back — 1" thick polyurethane inside and outside. 2" polyurethane seat cushion. **SHELLS:** ⅞" laminated Fiberboard. **BASE CONSTRUCTION:** Cast aluminum pre-assembled with 16 gauge chrome plated steel column and top plate (swivel or attachment) joined with ½" drawrod. Single seating attaches base to seat with four ¼"—20 kep nuts. "T" bar seating attaches seat unit to "T" bar by joining base unit to a pre-mounted seat "spider" with two ⅝" socket head cap screws. **SWIVELS OR ATTACHMENTS:** Swivels are Chromcraft's exclusive heavy duty dura-swivel. Attachments for "T" bar are cast aluminum "hubs" and "spiders". All fastening connectors are "T" nuts. **TABLE TOPS:** ⅞" self edged. Tops are ¾" high density particle board laminated two sides. Top is .040 melamine — edging .050 — back up sheet .030 phenolic.

CONFORM I AND CONFORM II SERIES

FRAMES: 16 gauge steel 1" square tubing. Tubing joined in tandem with high impact ABS molded plastic connectors. Connectors insert into tubing ends and fasten with #10 x ¾" Phillips oval head sheet metal screws — ¼" nylon glides with spring steel retainer clip. **SEAT UNITS:** Conform I — constructed of a main outer shell, replaceable back, bolster and seat. Outer shell is 5 ply plywood ½" thick. Back, bolster and seat are ½" plywood covered with 3" polyurethane foam and upholstered with 40 ounce Naugahyde House and Garden. Naugahyde House and Garden dielectrically heat sealed into 4½" squares. Conform II — Outer shell constructed with flexible cut out seat, inner shell is ¼" thick plywood with button tufted technique. Buttons are pushed through inner shell and attached on back side. Upholstery material is 40 ounce Naugahyde House and Garden. Naugahyde House and Garden over 3" polyurethane foam. Seat and back is replaceable. All Naugahyde House and Garden colors available. **ARMS:** Fully upholstered arm rest. Attached to unit by two 10—24 x 2¼" oval head machine screws with ½" steel spacers separating unit frame and arm rest (chrome plated). **TOPS:** 1¼" solid top of high density particle core laminated two sides. .040 melamine plastic on top surface. Self-edged with .050 melamine plastic.

COMMANDER AND GENERAL SERIES

UPHOLSTERY: Naugahyde House and Garden Channeled 40 ounce expanded supported channeled vinyl. All colors. Material is dielectrically heat sealed into 1½" channels. **FOAM CUSHIONING:** 2½" thick polyurethane foam. **SHELLS:** 5 ply plywood ½" thick reinforced with 11 gauge cold-roll steel channeling each side. **BASE CONSTRUCTION:** Cast aluminum pre-assembled with 16 gauge chrome plated steel column and top plate (swivel or attachment) joined with ½" drawrod. Single seating attaches base to seat with four ¼"—20 kep nuts. "T" bar seating attaches seat unit to "T" bar by joining base unit to a pre-mounted seat "spider" with two ⅝" socket head cap screws. **SWIVELS OR ATTACHMENTS:** Swivels are Chromcraft's exclusive heavy duty dura-swivel. Attachments for "T" bar are cast aluminum "hubs" and "spiders". All fastening connectors are "T" nuts. **TABLE TOPS:** ⅞" self edged. Tops are ¾" high density particle board laminated two sides. Top is .040 melamine — edging .050 — back up sheet .030 phenolic.

ROTATIONAL SERIES

UPHOLSTERY: Ajax fabric — 100% nylon Zepel treated, all colors. See swatch card. Houndstooth fabric — 100% olefin Herculon fiber. **FOAM CUSHIONING:** 3" thick polyurethane loose reversible cushion. Back — 1¼" thick polyurethane foam padding inner construction. Vacuum formed ABS outer skin with molded rigid urethane shell encapsulating a ¾" thick 5 ply plywood seat board deck. **BASE CONSTRUCTION:** Two part polished cast aluminum pre-assembled with 11 gauge steel brackets and ⅝" machine bolts for multiple seating units. Single seating base pre-assembled to swivel that attaches to seat with ¼"—20 kep nuts. "T" bar seating attaches seat unit to heavy duty 2½" x 2½" x ⅜" thick "T" bar by joining base unit to a pre-mounted seat "spider" with two ⅝" socket head cap screws. **SWIVELS OR ATTACHMENTS:** Swivels are exclusive heavy duty dura-swivel. Attachment for "T" bar, cast aluminum "hubs" and "spiders" with baked on epoxy enamel finish. **TABLE TOPS:** 1¼" high density particle board laminated both sides. Top is .040 melamine, back up sheet .030 phenolic. Edging is extruded vinyl banding.

HOUSE & GARDEN COLORS
ROYAL NAUGAHYDE®
FLAME-RESISTANT UPHOLSTERY
 Superior Quality

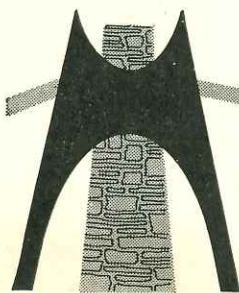

Designed to provide greater seating comfort
 and outstanding performance
 Latest color styling in a wide color range.

HOUSE & GARDEN EXCEEDS CCC-A-680A SPECIFICATIONS

Nominal overall thickness: 50 gauge (+5 -4)
 Standard weight: 42 oz. per linear yard
 Flame Resistant
 Anti-static slip finish
 Mildew Resistant: Backing & Facing
 Oil Resistant — Width: 54" wide — Roll Length: 30 yards.

CHECK THESE IMPORTANT ADVANTAGES

- Strong, stretchable knitted fabric backing
- Greater seating comfort built right in
- Soft and pleasant to the touch
- Color fast... won't fade
- Won't stiffen... won't crack
- Easily cleaned with soap and water
- Exceptional ease and smoothness in tailoring

GENERAL INFORMATION

TERMS

2% 15 days, Net 30 days from date of invoice.

PRICES

Prices are subject to change without notice. All orders are invoiced at prices prevailing at time of acknowledgement.

ORDER CHANGES AND CANCELLATIONS

All requests to change or cancel an order are subject to our ability to confirm. Changes and cancellations are possible only prior to the order being put into work. **AFTER AN ORDER IS PLACED IN WORK, CANCELLATION OR CHANGE CANNOT BE ACCEPTED AND THE ORDER MUST BE SHIPPED UPON COMPLETION.**

CLAIMS AND ALLOWANCES

WE CANNOT BE RESPONSIBLE FOR ANY FACTORY DEFECTS NOT REPORTED TO THE FACTORY PROMPTLY AFTER MERCHANDISE IS RECEIVED. We reserve the right to specify that items claimed to be defective, be returned to the factory for our inspection. If the claim is justified, the item (s) will be repaired or replaced at no charge.

TRANSIT LOSS OR DAMAGES

All shipments are delivered to the transportation company in good condition. Our responsibility ceases at that time. Each carton should be carefully examined at the time of delivery to determine if there is any evidence of transit damage. All cartons should be opened and the contents examined in order to check for concealed transit damage. In the event of damages, contact the delivering carrier for an inspection and file claim. We will attempt to assist you in every way possible. However, we cannot file claim with the carrier on your behalf.

CUSTOMER'S OWN MATERIAL (C.O.M.)

Without approval by factory sales department C.O.M. orders will not be accepted and acknowledged. Because of difference in cost of material, pattern, or applicability there may be an additional charge. In some cases, it may be necessary to receive small sample yardage to test on specific item before approval of order. **SPECIAL NOTE:** We assume **NO RESPONSIBILITY** for the durability or tailoring quality of customers own material.

SPECIAL NOTES: Cavalier Series
See Occasional Table Section (Cavalier Series) for matching tables. Aluminum inlay bases ONLY. (Specify Walnut or Teak.) Divided unit tops are 24" x 24" x 7/8" self edged. Corner unit tops are 36" x 36" x 7/8" with cut-a-way corners.

CONFORM I AND CONFORM II SERIES

FRAMES: 16 gauge steel 1" square tubing. Tubing joined in tandem with high impact ABS molded plastic connectors. Connectors insert into tubing ends and fasten with 10x3/4" Phillips oval head sheet metal screws—1/2" nylon glides with spring steel retainer clip. SEAT UNITS: Conform I—constructed of a main outer shell, replaceable back, bolster and seat. Outer shell is 5 ply plywood 1/2" thick. Back, bolster and seat are 1/2" plywood covered with 3" polyurethane foam and upholstered with 40 ounce Naugahyde House and Garden. Naugahyde House and Garden dielectrically heat sealed into 4 1/2" squares. Conform II—Outer shell constructed with flexible cut out seat, inner shell is 4" thick plywood with button tufted technique. Buttons are pushed through inner shell and attached on back side. Upholstery material is 40 ounce Naugahyde House and Garden. Naugahyde House and Garden over 3" polyurethane foam. Seat and back is replaceable. All Naugahyde House and Garden colors available. ARMS: Fully upholstered arm rest. Attached to unit by two 10—24 x 2 1/4" oval head machine screws with 1/2" steel spacers separating unit frame and arm rest (chrome plated). TOPS: 1 1/4" solid top of high density particle core laminated two sides. .040 melamine plastic on top surface. Self-edged with .050 melamine plastic.

SPECIAL NOTES: Conform II Series

The Conform II Series is available in Durel Urethane, but is not recommended for high traffic areas. An up-charge of \$18.00 a seat will be charged when using this material. Divided unit tops are 24" x 24" x 1 1/4" self edged. See Occasional Table Section (Conform Series) for matching tables. This series available in plain vinyl ONLY. (Button tufted standard.) See swatch card. Left and right arms are determined from sitting position (not facing unit).

COMMANDER AND GENERAL SERIES

UPHOLSTERY: Naugahyde House and Garden Channeled 40 ounce expanded supported channeled vinyl. All colors. Material is dielectrically heat sealed into 1 1/2" channels. FOAM CUSHIONING: 2 1/2" thick polyurethane foam. SHELLS: 5 ply plywood 1/2" thick reinforced with 11 gauge cold-roll steel channeling each side. BASE CONSTRUCTION: Cast aluminum pre-assembled with 16 gauge chrome plated steel column and top plate (swivel or attachment) joined with 1/2" drawrod. Single seating attaches base to seat with four 1/4"-20 kep nuts. "T" bar seating attaches seat unit to "T" bar by joining base unit to a pre-mounted seat "spider" with two 5/16" socket head cap screws. SWIVELS OR ATTACHMENTS: Swivels are Chromcraft's exclusive heavy duty dura-swivel. Attachments for "T" bar are cast aluminum "hubs" and "spiders". All fastening connectors are "T" nuts. TABLE TOPS: 7/8" self edged. Tops are 3/4" high density particle board laminated two sides. Top is .040 melamine—edging .050—back up sheet .030 phenolic.

SPECIAL NOTES: Commander Series

See Occasional Table Section (Commander Series) for matching tables. This series available in channeled vinyls ONLY. See swatch card. Aluminum inlay bases ONLY (specify Walnut or Teak). Item number followed by "A" indicates one pair of end arms ONLY. Arms are available when not included as part of unit. Parts number 002-015 (1 pair) \$36.00. On all divided units the table tops are 24" x 24" x 7/8" self edged. Corner unit tops are 36" x 36" x 7/8" with cut-a-way corner.

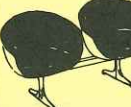

ROTATIONAL SERIES

UPHOLSTERY: Ajax fabric—100% nylon Zepel treated, all colors. See swatch card. Houndstooth fabric—100% olefin Herculon fiber. FOAM CUSHIONING: 3" thick polyurethane loose reversible cushion. Back—1½" thick polyurethane foam padding inner construction. Vacuum formed ABS outer skin with molded rigid urethane shell encapsulating a ¾" thick 5 ply plywood seat board deck. BASE CONSTRUCTION: Two part polished cast aluminum pre-assembled with 11 gauge steel brackets and 5/16" machine bolts for multiple seating units. Single seating base pre-assembled to swivel that attaches to seat with ¼"—20 kep nuts. "T" bar seating attaches seat unit to heavy duty 2½" x 2½" x 3/8" thick "T" bar by joining base unit to a pre-mounted seat "spider" with two 5/16" socket head cap screws. SWIVELS OR ATTACHMENTS: Swivels are exclusive heavy duty dura-swivel. Attachment for "T" bar, cast aluminum "hubs" and "spiders" with baked on epoxy enamel finish. TABLE TOPS: 1½" high density particle board laminated both sides. Top is .040 melamine, back up sheet .030 phenolic. Edging is extruded vinyl banding.

See Occasional Table Section (Presidential Series) for matching tables. Polished aluminum bases ONLY. All seats are loose cushion.

EXECUTIVE CHAIRS
IMAGE SERIES

UPHOLSTERY: Naugahyde House and Garden 40 ounce supported expanded vinyl—Ajax—100% nylon Zepel treated fabric or Durel urethane by Masland. See swatch card for colors. FOAM CUSHIONING: High density polyurethane foam outside seat and back shell. Inner seat, back and headrest are cold cure molded polyurethane foam. NOTE: When upholstered in Durel urethane the seat, back and headrest foam is wrapped in polyester for softness and a "crushed" look. SHELL: One piece injection molded formed polyethelene (with steel reinforcement) outer shell. Inner construction—3/16" 3 ply curved plywood inner back and seat inserts attached with slip in locking clips. ARMS: Open arms are fabricated of ¼" x 1½" polished and chrome plated cold rolled steel bar stock with upholstered arm pad. Also fully upholstered closed arms are available. Attachments are "T" nuts embedded in outer shell. BASES: All pedestal bases are highly polished cast aluminum with swivel tilt mechanism (adjustable height and tension) or chrome upright. Sheppard "Profile" casters—either tread or carpet. Side chair is 4 leg type constructed of 1" square x 16 gauge tubing. Executive guest chair is sled base type constructed of 3/8" thick by 1¼" wide bar stock steel. Tubing and bar stock are highly polished and chrome plated.

OCCASIONAL TABLES

TOPS: Either high density particle core laminated two sides or 15/32" thickness Smoke or Clear Glass (check specification for availability). Other than glass, top is .040 melamine, back is .030 phenolic and edging is .050 melamine or in some series extruded vinyl banding. Availabilities as shown. Tops come pre-drilled for base installation. BASES: Tubular bases are all welded construction chrome plated steel. White formed plastic bases are vacuum formed ABS outer skin over molded rigid urethane. Other pedestal bases are cast aluminum with marlex glides. Upright columns are chrome plated steel and are attached to the base with 1/2" steel drawrod to a steel top plate. Inlay bases have dinoc pressure sensitive vinyl to simulate woodgrain.

CONFERENCE TABLES

TOPS: 1 1/4" high density particle board laminated two sides. Top is .040 melamine plastic, backing is .030 phenolic. Self edged with .050 melamine plastic. Solaris Series has extruded vinyl banding on edges. Top features two 16 gauge steel warp strips (except on R606 and R607). APRON: Panel between leg columns. 3/4" (1 1/4" on Solaris Series) high density particle core laminated two sides with .030 melamine plastic. BASES: Die cast aluminum with chrome plated steel column attached with 1/2" steel drawrod to 3/16" steel top plate. Bases (except Solaris Series) are strutted with two laminated struts in matching melamine plastic. Solaris base—two part polished cast aluminum pre-assembled with 11 gauge steel brackets and 5/16" machine bolts.

RESTAURANT TABLES

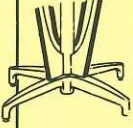

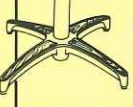

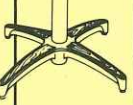

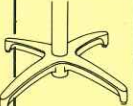

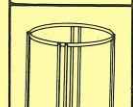

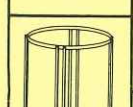

TOPS: 1 1/4" high density particle core laminated two sides. Top is .040 melamine, back is .030 phenolic. Edging is .050 melamine. Colors available as shown. Tops come pre-drilled for base installation. Smoke and Clear Glass tops—thickness available as indicated. See specifications for sizes. BASES: Bases with the exception of 632-01, 732-01, 626-02 and 726-02 are cast aluminum with marlex glides. Upright columns are chrome plated steel and are attached to the base with a 1/2" steel drawrod to a top plate. Bases are pre-assembled. Inlay bases columns are chrome plated steel and are attached to the base with a 1/2" steel drawrod to a top plate. Bases are pre-assembled. Inlay bases have dinoc pressure sensitive vinyl to simulate woodgrain. 632-01 and 732-01 are all welded construction of chrome plated tubular steel.

General Warranty

All furniture bearing the CHROMCRAFT label is warranted by the manufacturer to have been shipped by the factory in perfect condition. This means that if any part of any CHROMCRAFT product proves defective under normal use, CHROMCRAFT will repair or replace the part free of charge except that the purchaser must pay all transportation to and from the CHROMCRAFT factory.

This is the official CHROMCRAFT warranty and applies only within the continental limits of the United States for a period of one year. CHROMCRAFT will not honor any other warranties, either expressed or implied and this warranty does not apply if the furniture is misused, abused or accidentally or wilfully damaged.

GENERAL SPECIFICATIONS

IMAGE SERIES

UPHOLSTERY: Naugahyde House and Garden 40 ounce supported expanded vinyl — Ajax — 100% nylon Zepel treated fabric or Durel urethane by Masland. See swatch card for colors. **FOAM CUSHIONING:** High density polyurethane foam outside seat and back shell. Inner seat, back and headrest are cold cure molded polyurethane foam. **NOTE:** When upholstered in Durel urethane the seat, back and headrest foam is wrapped in polyester for softness and a "crushed" look. **SHELL:** One piece injection molded formed polyurethane (with steel reinforcement) outer shell. Inner construction — $\frac{3}{16}$ " 3 ply curved plywood inner back and seat inserts attached with slip in locking clips. **ARMS:** Open arms are fabricated of $\frac{1}{4}$ " x $1\frac{1}{2}$ " polished and chrome plated cold rolled steel bar stock with upholstered arm pad. Also fully upholstered closed arms are available. Attachments are "T" nuts embedded in outer shell. **BASES:** All pedestal bases are highly polished cast aluminum with swivel tilt mechanism (adjustable height and tension) or chrome upright. Sheppard "Profile casters — either tread or carpet. Side chair is 4 leg type constructed of 1" square x 16 gauge tubing. Executive guest chair is sled base type constructed of $\frac{3}{8}$ " thick by $1\frac{1}{4}$ " wide bar stock steel. Tubing and bar stock are highly polished and chrome plated.

EXECUTIVE CHAIRS

BACKS: $\frac{1}{2}$ " thick 5 ply plywood. **SEATS:** $\frac{3}{4}$ " thick 5 ply plywood. **FOAM:** Backs of X700 and X701 are covered with 1" polyurethane foam. The X702 and X794 have 1" polyurethane foam cushion back. Seats are all 4" polyurethane foam. **INSERT PANELS:** X701 and X702 are $\frac{1}{6}$ " thick plywood covered with polyurethane foam. **UPHOLSTERY AVAILABILITIES:** Naugahyde House and Garden 40 ounce supported expanded vinyl. All colors. Seat options: Either 40 ounce vinyl or Ajax — 100% nylon Zepel treated fabric. All colors are available. **BASE MECHANISM:** Adjustable height 3". Adjustable torsion bar for tilt. Full swivel. Attaches (pre-assembled to base) to seat with four $\frac{1}{4}$ "—20 kep nuts. **BASES:** Cast aluminum with $2\frac{1}{2}$ " chrome plated profile casters either all steel (carpet) or rubber tread (for hard surface floor use). X703 and X792 have tension spring tilt mechanism and cast aluminum base.

THE HIDEAWAY FOR YOUR PRIVATE OFFICE

The Hideaway Bar is a closed cabinet in beautiful Burnished Walnut melamine plastic. When in use this fine piece of furniture becomes functional by simply rolling out the bottom half, which is your front bar. The top part remains as your back bar, which will be illuminated by an overhead light located in the top panel. The Hideaway is functional, decorative and can be closed to conserve space. A compliment to any private office.

Chromcraft

**VINYLS
FABRICS
MELAMINE PLASTICS**

Contract Furniture

MELAMINE PLASTICS — Chromcraft uses only the best materials available on the market. Melamine plastics provide the look and feel of real wood without the maintenance problems, and they are burn, mar and stain resistant. Suppliers of Melamine plastics are Consoweld Corporation and Melamite. (See specification pages for limitations and usage on certain patterns.)

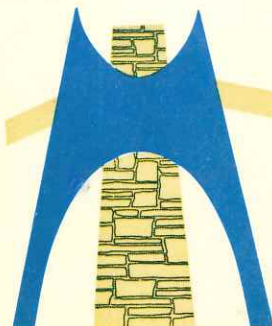

DUREL by Masland — Durel is a heavy duty Urethane coated fabric made to give the appearance of soft crushed leather, and has characteristics exceeding all other simulated leathers. It breathes like cloth. This material is limited to specific items. (See specification pages for limitations of usage on certain patterns.)

CHARISMA by Masland — Charisma offers the look of real antique leather in an expanded supported vinyl with built-in wrinkles for a luxury appearance. This material is limited to specific items. (See specification pages for limitations of usage on certain patterns.)

AJAX — Ajax is 100% nylon fabric that has been Zepel treated for extra protection. Ajax is color coordinated with vinyls for complete office planning. (See specification pages for limitations of usage on certain patterns.)

HOUNDSTOOTH — Houndstooth is a 100% Olefin fabric that has built-in stain resistance. (See specification pages for limitations of usage on certain patterns.)

VINYLS — See back page for complete specifications.

GENERAL INFORMATION

TERMS

2% 15 days, Net 30 days from date of invoice.

PRICES

Prices are subject to change without notice. All orders are invoiced at prices prevailing at time of acknowledgement.

ORDER CHANGES AND CANCELLATIONS

All requests to change or cancel an order are subject to our ability to confirm. Changes and cancellations are possible only prior to the order being put into work. **AFTER AN ORDER IS PLACED IN WORK, CANCELLATION OR CHANGE CANNOT BE ACCEPTED AND THE ORDER MUST BE SHIPPED UPON COMPLETION.**

CLAIMS AND ALLOWANCES

WE CANNOT BE RESPONSIBLE FOR ANY FACTORY DEFECTS NOT REPORTED TO THE FACTORY PROMPTLY AFTER MERCHANDISE IS RECEIVED. We reserve the right to specify that items claimed to be defective, be returned to the factory for our inspection. If the claim is justified, the item (s) will be repaired or replaced at no charge.

TRANSIT LOSS OR DAMAGES

All shipments are delivered to the transportation company in good condition. Our responsibility ceases at that time. Each carton should be carefully examined at the time of delivery to determine if there is any evidence of transit damage. All cartons should be opened and the contents examined in order to check for concealed transit damage. In the event of damages, contact the delivering carrier for an inspection and file claim. We will attempt to assist you in every way possible. However, we cannot file claim with the carrier on your behalf.

CUSTOMER'S OWN MATERIAL (C.O.M.)

Without approval by factory sales department C.O.M. orders will not be accepted and acknowledged. Because of difference in cost of material, pattern, or applicability there may be an additional charge. In some cases, it may be necessary to receive small sample yardage to test on specific item before approval of order. **SPECIAL NOTE:** We assume **NO RESPONSIBILITY** for the durability or tailoring quality of customers own material.

General Warranty

All furniture bearing the CHROMCRAFT label is warranted by the manufacturer to have been shipped by the factory in perfect condition.

This means that if any part of any CHROMCRAFT product proves defective under normal use, CHROMCRAFT will repair or replace the part free of charge except that the purchaser must pay all transportation to and from the CHROMCRAFT factory.

This is the official CHROMCRAFT warranty and applies only within the continental limits of the United States for a period of one year.

CHROMCRAFT will not honor any other warranties, either expressed or implied and this warranty does not apply if the furniture is misused, abused or accidentally or wilfully damaged.
